

If the diagnostic assessment reveals that a student falls below benchmark for both word reading and comprehension, then they will benefit from all the supports suggested above. Choosing, Monitoring and Modifying Reading Interventions in MTSS provides more information on recommended next steps.

Figure 1: An MTSS decision tree for reading in secondary school

More information

AERO's MTSS resources provide further information about using MTSS to support students, including:

- how to [assess students to identify reading skills](#) in need of improvement
- examples of schools using [screening](#) and [progress monitoring](#) to support interventions
- how to [choose interventions that target these gaps](#).

[Five from Five's Reading Pledge](#) also contains guidance on reading assessment and intervention for primary school students.

Acknowledgement

AERO would like to acknowledge the contribution of DSF in developing content for this practice resource. AERO would also like to acknowledge Professor Anne Castles, Jessica Colleu Terradas and Melanie Henry for providing expert reviews of this content.
